

## The International Day of Women and Girls in Science

11 February 2026

The Department of Zoology, Mangaldai College (Autonomous), celebrated the International Day of Women and Girls in Science on February 11, 2026, with the active participation of 68 students and faculty members. The event was organized under the guidance of the Head of the Department of Zoology, Dr. Seema Jyoti, whose support and encouragement were instrumental in the program's success.

In the inaugural address, Dr. Kamala Kanta Borah, Principal, Mangaldai College (Autonomous), encouraged students to pursue their dreams with dedication by attending classes regularly, clearing their doubts, and actively participating in brainstorming sessions and meaningful interactions with faculty members.

The invited speaker, Dr. Pallabi Saikia, Assistant Professor, Department of Chemistry, Mangaldai College (Autonomous), highlighted the achievements of eminent women scientists such as Dr. Jayanti Chutia, Dr. Purabi Saikia, Dr. Aishawnnya Sharma, Dr. Purnima Devi Barman, and Dr. Binita Pathak, inspiring students to see themselves as future contributors to STEM. Aligning her talk with the 2026 theme, "*From Vision to Impact: Redefining STEM by Closing the Gender Gap*," she emphasized the importance of closing the gender gap and actively contributing to nation-building. The session also featured a short video on Anandibai Joshi, the first Indian female doctor, which added historical inspiration to the event.

Another eminent guest, Dr. Manju Kalita, HOD of the Department of Philosophy, Mangaldai College (Autonomous), reflected on how philosophy integrates with science, with a touch of historical perspective, encouraging students to understand science not merely as a subject but as a thoughtful and evolving discipline shaped by ideas and values. The program concluded with a vote of thanks extended to all dignitaries, faculty members, and students.

### Outcome:

To inspire young students to pursue science, reduce gender bias in STEM, and contribute meaningfully to society by drawing inspiration from eminent women scientists.
