Unraveling the Mysteries
List of Programmes

Code Battle

Code Battle is a coding competition designed for two age groups: Group A (up to age 16) and Group B (age 16 and above). Participants can choose from programming platforms like C, C++, and Python.

Cyber Canvas

A digital painting competition for artists up to age 16 sounds like a fantastic opportunity to nurture creativity and showcase young talent

Robo Truck Rumble

Participants design and build their robo trucks, and compete on the track. The competition provides a designated track with various obstacles, challenges, and terrains to test the capabilities of the robo trucks.

ChromaCraft

ChromaCraft invites participants of all ages and design backgrounds to showcase their artistic talents and vision in crafting captivating banners. Participant receives a unique theme to inspire their banner creation.

Mind Maze

Mind Maze invites participants categorized into two groups: Group A (up to age 16) and Group B (age 16 and above) to navigate through a series of intricate puzzles, riddles, and logic challenges designed to stimulate critical thinking and problem-solving skills.

GameSphere

Gamesphere, the ultimate virtual war game set within the battlegrounds of BGMI (Battlegrounds Mobile India)
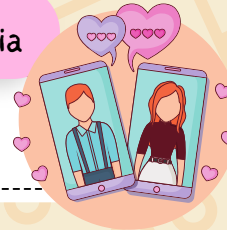

BGMI KRAFTON

Cubic Rush

Rubik's Cube Competition, where enthusiasts of all ages come together to showcase their speed, skill, and problem-solving prowess in the art of solving Rubik's Cubes

Photo Mania

mobile photography enthusiasts to showcase their creativity, vision, and storytelling skills through the lens of their smartphones.

Prakalpp

Prakalpp, a prestigious science model competition (Technology based) that fosters innovation, creativity among students
